

Thursday 7 September 2017: Pre-conference Workshop

0900	Registrations open		
1000 - 1010	Welcome		
1010 - 1110	Immunisation coverage in New Zealand <ul style="list-style-type: none"> • Ministry of Health Immunisation update • Pharmac Update 		
1110 - 1130	Morning Tea		
1130 – 1215	Pertussis update Peter McIntyre , Director of NCIRS, Australia		
1215 - 1255	Varicella and vaccine hesitancy Jenny Royle , Immunisation Paediatrician, UNSW		
1255 - 1330	Update on National Cold Chain Audit and the COOL Project Loretta Roberts & Barbara McArdle , The Immunisation Advisory Centre, The University of Auckland		
1330 - 1415	Lunch		
	Breakout sessions		
	Room 1 RHMZ05	Room 2 RH102	Room 3 RHLT03
1415 - 1450	Having immunisation conversations with families Jenny Royle	Understanding immunisation coverage Ministry of Health team	Immunisation delivery best practice Lisbeth Alley and Trish Wells - Morris
1455 - 1530	Exploring the challenges of communication Theo Brandt	Schedule changes 2017 Anna Wall	Cold chain accreditation peer moderation Bernadette Heaphy and Lynette Collis
1535 - 1610	Understanding immunology Mary Nowlan	A year in the life of a Schedule change! Diana Murfitt and Bernadette Heaphy	LinKIDS Canterbury – Learning from the NIR, to connect children with other health services Bridget Lester
1615 - 1645	Vaccine safety Helen Petousis- Harris		
1645 - 1715	Panel discussion and questions		
1715 - 1730	Closing speaker Caroline McElnay		
1730	Bell Technology pre-conference Workshop drinks and nibbles		

Friday 8 September 2017: Immunisation Conference Day One

0830 - 0900	Powhiri: George Taipari , Kaumatua Conference Opening		
0900 - 1030	Plenary Session 1: Gains and challenges for immunisation worldwide Chair: Nikki Turner		
	Immunisation in New Zealand / Aotearoa - progress and challenges Caroline McElnay , Director of Public Health, Ministry of Health.		
	Immunisation challenges in Fiji and Pacific Litiana Volavola , National EPI coordinator, Fiji		
Global challenges for immunisation and vaccines (video link) Peter Hotez , President of Sabin Vaccine Institute, USA			
1030 - 1100	Morning Tea		
1100 - 1215	Concurrent Session 1		
	Programmes & communication RHMZ03 Chair: Bernadette Heaphy	Vaccine impact in NZ RHLT02 Chair: Mary Nowlan	Inequities RHMZ05 Chair: Lisbeth Alley
	Not another immunisation target! Why do we need them? Rachel Webber	Rotavirus infection in the Auckland region following the implementation of universal infant rotavirus vaccination: impact on hospitalisations and laboratory implications. Gary McAuliffe	Exploring inequities for immunisation and vaccine preventable diseases among migrant children: the Red Knot (Huahou) Study. Nadia Charania
	How irrational?: A discussion of rationality and choice as to childhood vaccination. Mark Jones	VE PCV Effectiveness of the Pneumococcal conjugate vaccines against clinically suspected Invasive Pneumococcal Disease in New Zealand. Danyon Petousis-Harris	Improving immunisation coverage for Indigenous children in Queensland – what more can we do? Amanda Hicks
Getting the boys on board - promoting the 2017 changes to HPV immunisation. Bonnie Jones	A retrospective cohort study of the impact of a Group B OMV meningococcal vaccine (MeNZB™) on hospitalisations attributable to gonorrhoea. Janine Paynter	“Vax Reach”- a mobile, outreach vaccination program to increase vaccination coverage among vulnerable populations. Karen Bellamy	
1215 - 1315	Lunch		

Friday 8 September 2017: Immunisation Conference Day One cntd.

1315 – 1445	Plenary Session 2: Vaccine Safety Surveillance Chair: Helen Petousis-Harris		
	Vaccine safety: The importance of going beyond passive surveillance - recent examples Steve Black , Professor of Pediatrics, University of Cincinnati, USA		
	Vaccine safety monitoring – How does it work now? Susan Kenyon , Principal Technical Specialist, Pharmacovigilance, Clinical Risk Management, Medsafe		
	Vaccine safety monitoring – What do we want to do in the future? Michael Tatley , Director, NZ Pharmacovigilance Centre, University of Otago		
	Need for active surveillance in New Zealand: Panel Discussion: Steve Black, Susan Kenyon, Michael Tatley, Helen Petousis-Harris Chair: Nikki Turner		
1445 - 1515	Afternoon Tea		
1515 - 1630	Concurrent Session 2		
	Vaccine safety RHMZ03 Chair: Diana Murfitt	Mitigating immunisation stress RHLT02 Chair: Trish Well-Morris	Disease epidemiology RHMZ05 Chair: Tomasz Kiedryznski
	Cold Chain Failure. Helen August	Strategies to assist in vaccinating needle phobic children. Deidre Brogan and Rosemary Joyce	Epidemiology of varicella zoster infections in Australia, 1998-2015. Meru Sheel
	Australia's expanding nationwide active surveillance system, AusVaxSafety, demonstrates the safety of 2017 seasonal influenza vaccines in near real time. Lucy Deng	Immunisations under sedation at a tertiary paediatric hospital in Melbourne, Australia from 2012-2016. Kirsten Perrett	Breakthrough Pertussis in New Zealand infants and young children. Hannah Chisholm
Post vaccination febrile seizures: Clinical severity and outcome data is reassuring. Lucy Deng	Minimising Childhood Immunisation Pain using a cold-numbing device (Coolsense®). Narelle Jenkins	The changing epidemiology of invasive meningococcal disease in Australia: continuing rise in meningococcal W disease. Julia Maguire	
1830 - 2200	Green Cross Health Conference Evening Event, Banquet Hall, Parliament: Celebrating 20 years of IMAC		

Saturday 9 September 2015: Immunisation Conference Day Two

0900 - 1030	Plenary Session 3: Vaccine preventable diseases and vaccine control strategies Chair: Caroline McElnay			
	HPV immunisation: improving HPV protection through the school immunisation program Helen Marshall , Professor of Vaccinology, University of Adelaide			
	Live attenuated vaccines for varicella and zoster: Evidence for effectiveness and safety Steve Black , Professor of Pediatrics, University of Cincinnati			
	Pneumococcal vaccine effectiveness and disease control Peter McIntyre , Director of NCIRS, Australia			
1030 - 1100	Morning Tea			
1100 - 1215	Concurrent Session 3 : VPDs			
	Opportunities to immunise RHMZ03 Chair: Anna Wall	HPV outcomes RHLT2 Chair: Rayoni Keith	Working as one RHMZ05 Chair: Asmitha Patchay	OIS Networking stream RHMZ02 Chair: Jane Grant
	A cost benefit analysis of the use of routine serology in reducing the burden of re-immunisation in children who have undergone chemotherapy for childhood cancer. Fraser Jeffrey	Association of prior HPV vaccination with reduced preterm birth: a population based study. Anna Howe	Upper Hutt HPV initiative. Karis Harland	<i>This stream is specifically designed for OIS team members.</i> "It's immunisation calling" – a state-wide program to follow up children overdue for immunisation using call centre technology Amanda Hicks
	How useful is a "drop in" immunisation service in a tertiary paediatric hospital? Deidre Brogan and Rosemary Joyce	The impact of ten years of 4-valent HPV vaccination in Australia: what's next in HPV prevention in Australia Cyra Patel and Julia Brotherton	Out with the Old, in with the Flu Diana Murfitt	IMAC Outreach Immunisation Services Project Mitch Fray <i>Followed by group discussion</i>
Every opportunity in partnership. Lorraine Glover	Prevalence of human papillomavirus positive oropharyngeal cancer in New Zealand. Rebecca Lucas-Roxburgh	Timing of Influenza and Respiratory Syncytial Virus Epidemic Periods in Five Distinct Regions of Argentina. Jazmin Duque		
1215 - 1300	Lunch			

Saturday 9 September 2015: Immunisation Conference Day Two cntd.

1300 - 1410	Plenary 4: Outbreaks and vaccines on the horizon Chair: Marguerite Dalton
	Taming the meningococcus Helen Marshall , Professor of Vaccinology, University of Adelaide
	Pandemic flu Charles Blanch , Director of Emergency Management, Protection Regulation and Assurance, Ministry of Health
	A sneak peek into the future of vaccines Michael Nissen , Director of Scientific Affairs & Public Health for GSK Vaccines, Singapore
1410 - 1500	Plenary Session 5: Looking forward Chair: Emma Best
	Immunisation – instilling good memories Anne La Flamme , Professor, School of Biological Sciences, Victoria University of Wellington
	Conference conclusions and summary Emma Best , Senior Lecturer, Paediatrics, Child and Youth Health, The University of Auckland
	Conference Closing: Nikki Turner Poroporoaki: George Taipari , Kaumatua
