

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

Thursday 5 September 2019: Immunisation Workshop				
8:15	Registration and coffee available on arrival			
9:20	Mihi whakatau			
9:30	Session 1			
9:30 - 10:00	Immunisation Team update - Ministry of Health			
10:00 - 10:40	Pandemic planning - Diana Murfitt, Ministry of Health			
10:40 - 11:00	Morning tea			
11:00	Session 2: Workshops (Note: once workshop begins delegates cannot change rooms)			
	The way forward – getting to 95%	Cold chain	Immunisation conversations	Vaccine administration
	<ul style="list-style-type: none"> Understanding immunisation coverage data Addressing decreasing coverage Immunisation during pregnancy Reducing inequity Panel discussion: using data to improve coverage 	<ul style="list-style-type: none"> CCA in DHB hospital sites National Standards update Medicine Control and Community Pharmacy cold chain CCA moderation discussion 	<ul style="list-style-type: none"> Vaccine hesitancy - a continuum of choice Motivational interviewing for immunisation conversations Social media, how and when to react Engaging with Māori families 	<ul style="list-style-type: none"> Best practice Vaccines and immunosuppression Vaccine errors Moderating clinical assessments
13:00 - 13:45	Lunch			

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

13:45	Session 3: Workshops (repeat of Session 2; Note: workshops are repeated in the afternoon, once workshop begins delegates cannot change rooms)			
	The way forward – getting to 95%	Cold chain	Immunisation conversations	The practical side
	<ul style="list-style-type: none"> • What’s in the numbers? Understanding immunisation coverage data • Addressing decreasing immunisation coverage rates • Immunisation during pregnancy - successes and future challenges • Reducing inequity - the key to improved coverage 	<ul style="list-style-type: none"> • The cold chain accreditation model within secondary care • Medicines control update • Feedback on the cold chain standards review • Moderating cold chain accreditation 	<ul style="list-style-type: none"> • Vaccine hesitancy - a continuum of choice • Motivational interviewing for immunisation conversations • Social media, how and when to react 	<ul style="list-style-type: none"> • Vaccine administration best practice • Vaccines and immunosuppression • Vaccine errors • Moderating clinical assessments
15:45 - 16:10	Afternoon break			
16:10	Session 4: Future thinking and conclusions			
	What’s new internationally in vaccinology - Nikki Turner, Director, the Immunisation Advisory Centre			
	Closing remarks - Loretta Roberts, the Immunisation Advisory Centre			
17:00	Workshop ends			

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

Friday 6 September 2019: Immunisation Conference Day One

08:30	Pōwhiri / Welcome		Kaumatua, George Taipiri
09:00	Plenary Session 1: Current situations		Chair: Niki Stefanogiannis
	The future for immunisation in New Zealand - challenges and opportunities		Caroline McElnay, Director of Public Health, Ministry of Health
	An international update: Gains and losses		Nikki Turner, Director, the Immunisation Advisory Centre
	Immunization and VPDs in the Western Pacific Region: evolution, achievements and future directions		Yoshihiro Takashima (via video link), Coordinator, EPI Unit, Division of Communicable Diseases
	Minster of Health-opening comments		Hon David Clark
10:30 - 11:00	Morning Tea		
11:00	Concurrent Session 1		
	Immunisation frontline Chair: Lisbeth Alley Loretta Roberts Achieving optimal immunisation coverage in NZ: Findings from 2018 survey of frontline health care workers Georgina Tucker Why messages don't make it: A NIR and practice data comparison	Influenza vaccination in high risk groups Chair: Anna Smith Joanne Hickman Let's stop the flu - vaccinate your crew Catherine Jackson Improving influenza vaccine coverage in Eligible 0-4 year-olds in Auckland and Waitemata DHBs	Communicating about immunisation Chair: Theo Brandt Amanda D'Souza Revolutionising how we teach immunisation to medical students Bianca Bullivant Sharing Knowledge About Immunisation (SKAI): Implementation and dissemination of a novel communications package

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

	Concurrent Session 1 continued		
	Jillian Boniface and Leanne Liggett Immunisation catch-up calculator	Catherine Glover Active surveillance of adverse events following immunisation with influenza and reduced antigen diphtheria-tetanus-acellular pertussis vaccines in pregnant Australian women	Natalie Desmond Giving voice to the silent majority – social media tales from the West
12:15 - 13:15	Lunch		
13:15	Plenary Session 2: New vaccines Dedicated to Professor Diana Lennon		Chair: Emma Best
	Introduction	Emma Best, Senior Lecturer, Paediatrics, Child and Youth Health, The University of Auckland	
	Vaccines to reduce the burden of respiratory diseases in children	Kathryn Edwards, Professor of Paediatrics, Vanderbilt University Medical School, US	
	Respiratory virus vaccines - results of the Novavax maternal RSV vaccine study	Adrian Trenholme, Paediatrician, Middlemore Hospital	
	One vaccine, two diseases, three lessons	Helen Petousis-Harris, Director, Vaccine Datalink and Research Group, The University of Auckland	
	Working towards an effective vaccine for Group A Streptococcus	Nikki Moreland, Senior Lecturer in Immunology, The University of Auckland	
15:00 - 15:30	Afternoon Tea		

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

15:30 - 17:00	Concurrent Session 2		
	Vaccine impact on disease Chair: Peter McIntyre	Disease outbreak and control Chair: Diana Murfitt	Immunisation challenges and successes Chair: Loretta Roberts
	<p>Georgia Richardson Vaccination of pregnant women and infant hospitalisation rates for pertussis in Aotearoa</p> <p>Cameron Burton Paediatric invasive meningococcal disease in Auckland, 2004-2017</p> <p>Sanjay Jayasinghe Long-term vaccine impact on invasive pneumococcal disease among children with significant underlying comorbidities in a large Australian birth cohort</p>	<p>Jean McQueen Mumps outbreak immunisation programme, "Community Immunity," in Auckland and Waitematā DHBs</p> <p>Bridget Lester Measles – an immunisation system response</p> <p>Anil Shetty Targeted vaccination campaign for Men W in Northland</p>	<p>Jody Stephenson The challenge of ensuring universal antenatal Hepatitis B screening and vaccination in rural NSW, Australia</p> <p>Belinda Tominc Improving access for vulnerable young people to vaccinations: A nurse-led model</p> <p>Jenny O'Neill Little tiny teams doing big programs: Immunisation in specialist schools in Victoria, Australia.</p> <p>Hannah Chisholm Pharmaceutical use during the primary immunisation period for hospitalised pertussis vaccine failure cases: A case series study</p> <p>Sarah Sheridan Pertussis vaccine effectiveness among Aboriginal and non-Aboriginal children in a population-based cohort</p> <p>Catherine Glover AusVaxSafety profiles of adverse events across the Australian infant National Immunisation Program schedule</p> <p>Alexis Pillsbury Active, text message-based vaccine safety surveillance system confirms the safety of influenza vaccines administered during the Australian 2019 influenza season</p> <p>Nicola Carter Australia's novel active vaccine safety surveillance system monitoring adverse events through school-based immunisation</p> <p>Chloé Damon Australia's innovative approach to post-licensure vaccine safety monitoring: The AusVaxSafety active vaccine safety surveillance system</p> <p>Alan Leeb SmartVax – Australian active adverse event surveillance following immunisation (AEFI) in primary care using SMS and smartphone technology</p> <p>Rosemary Joyce The impact of immunosuppressive medications taken during pregnancy on maternal and infant immune responses to vaccines: The Immumum study</p>
17:00 - 19:00	Conference Evening Event: Sir Owen G Glenn Building		

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

Saturday 7 September 2019: Immunisation Conference Day Two

09:00	Plenary 3: Vaccine confidence	Chair: Helen Petousis-Harris
	Insights from the Vaccine Safety Network	Alberto Tozzi (via video link), Chief Innovation Officer, Bambino Gesù Children's Hospital, Rome, Italy
	Maternal immunisation: Protection of mother and infant	Kathryn Edwards, Professor of Paediatrics, Vanderbilt University Medical School, US
	Addressing vaccine hesitancy and refusal	Julie Leask, Professor, School of Nursing and Midwifery, University of Sydney
	Communicating maternal immunisations – a midwifery perspective	Adrienne Priday, Clinical educator midwifery, AUT University
	Panel discussion	
10:45 - 11:15	Morning Tea	
11:15	Plenary Session 4 Equity	Chair: Nikki Turner
	Here's the truth: We know how to close the indigenous immunisation coverage gap!	Katrina Clark, NCIRS, Australia
	Understanding immunisation inequities for tamariki Māori	Esther Willing, Lecturer, Kōhatu – Centre for Hauora Māori, The University of Otago
	Exploring inequities for immunisation and disease among migrant and refugee children in New Zealand	Nadia Charania, Lecturer, Department of Public Health, AUT Janine Paynter, Research Fellow, the University of Auckland
	Dispelling myths: Refugee health and immunisation	Helen Saunders, GP, Refugee Health Screening Service, Auckland Regional Public Health Service
12:45 - 13:30	Lunch	

11th New Zealand Immunisation Conference and pre-conference Workshop

5 - 7 September 2019 | Sir Owen G Glenn Building, The University of Auckland

13:30	Concurrent Session 3			
	Maternal vaccination Chair: Mary Nowlan	Vaccine safety surveillance Chair: Jane Morphet	Improving coverage equity Chair: Bernadette Heaphy	OIS Networking
	Callum Thirkell Determinants of antenatal influenza and pertussis vaccination uptake in Canberra, Australia Samuel Martin / Natalie Gauld Vaccination in pregnancy: Uptake, awareness and the patient journey for Māori women Natalie Gauld Informed choice: Midwives' experiences and recommendations with vaccinations in pregnancy	Alexis Pillsbury Demonstrating human papillomavirus (HPV) vaccine safety in Australia using active, text message-based surveillance Hazel Clothier Improving vaccine safety surveillance using business intelligence software: Victoria, Australia Lucy Deng Status epilepticus following vaccination is rare	Hinemoa McLelland Effective HPV vaccination with Maori male students: Evaluation of the Uawa Community Health Centre and Tolaga Bay area school initiative. Alamgir Kabir Estimating pneumococcal vaccine coverage among Australian Aboriginal children and children with a medically at-risk condition using record linkage Amanda Hicks <i>Immunise Seniors</i> : Improving shingles vaccination uptake	Led by a Regional Advisor and supported by experienced OIS nurses, this is an opportunity to meet up with other OIS providers from around the country, share experiences and discuss topical issues.
14:45 - 15:20	Plenary Session 5 Motivating around immunisation Chair: Emma Best			
	How to talk about Immunisation to motivate evidence led action		Jess Berenston-Shaw, Co-director of The Workshop think-tank	
	Conference summary and conclusions		Emma Best and Nikki Turner, The University of Auckland	
	Poroporoaki and Conference Closing		Kaumatua, George Taipiri
